FLOS

Palazzo Visconti

Via Cino del Duca, 8, 20122 Milano MI, Italy

"Light is our theme," Formafantasma's Andrea Trimarchi and Simone Farresin asserted. "Every author has an obsession, and light is ours." The new collection for Flos, 'SuperWire', shown in the majestic surroundings of the Palazzo Visconti, exemplifies their ability to innovate while retaining desirability and beauty. The range is produced in floor, table, wall and pendant versions using hexagonal modules of flat glass, an aluminium framework and 12 LED strips, each protected by super-fine borosilicate tubes.
