Tribute to *natural elegance*

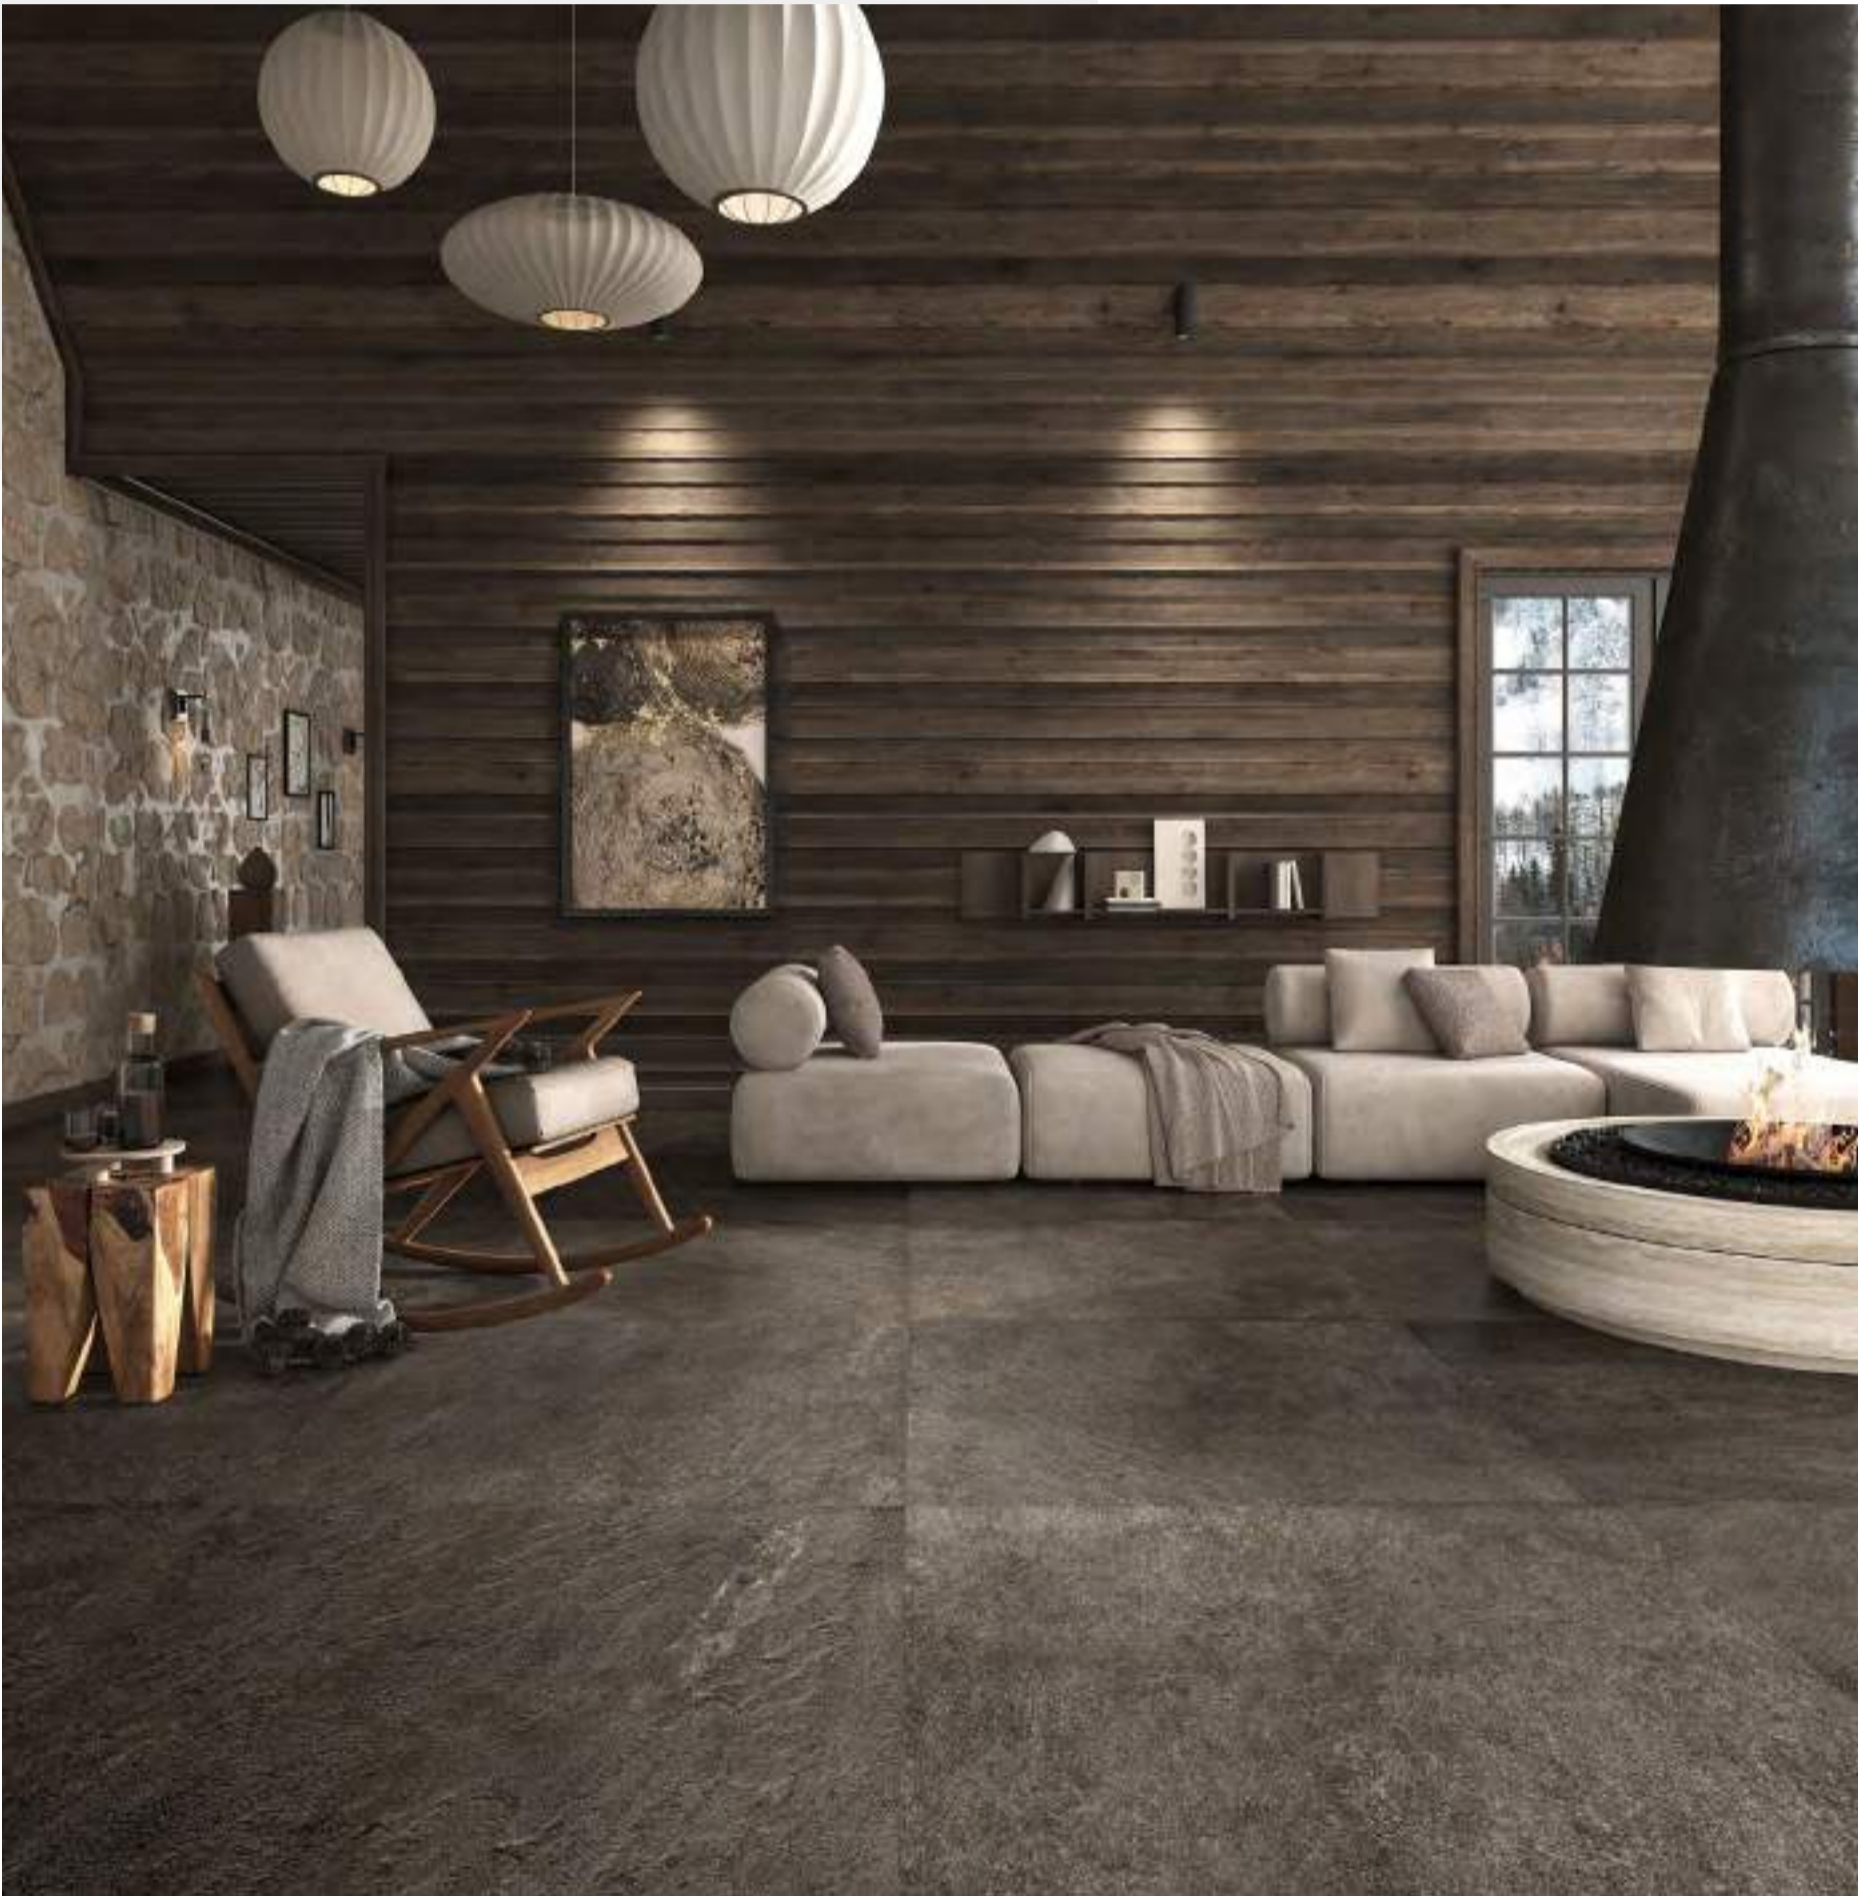

Fiorano Modenese, June 2024 – Ceramica Magica, a renowned brand of the Terracinta Group, presents its latest collection, Retreat, a ceramic series designed to blur the lines between indoor and outdoor spaces, creating a harmonious connection with nature. Inspired by rustic landscapes and ancient stones, Retreat is a celebration of quartzite and porphyry, offering timeless beauty and versatility in any setting.

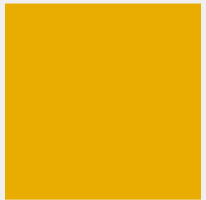

A Seamless Dialogue Between Indoor and Outdoor Spaces

The Retreat collection is an invitation to pause, a journey through the magnificence of nature where quartzite and porphyry create continuity between indoor and outdoor living. Designed to bring peace and serenity into every space, from living rooms to terraces, Retreat redefines the concept of a home, turning it into a retreat where rustic elegance meets modern functionality.

This collection offers a sophisticated blend of millenary stones, allowing for personalized and creative design solutions that adapt to both classic and contemporary styles. The result is a surface that envelops the home, offering an immersive and tranquil escape from the monotony of daily life.

Nature's Beauty as a Safe Haven

Ceramica Magica continues its exploration of the perfect living environment with Retreat, where the materials themselves create a symphony of comfort and elegance. The transition from indoor to outdoor becomes seamless, with Retreat's magical surfaces extending into every direction, perfectly matching wood and diverse furnishing styles.

With slip resistance ratings of R10 and R11, Retreat offers practical yet elegant solutions for both interiors and exteriors, ensuring a safe and stylish environment across all surfaces.

The Materials: Quartzite and Porphyry

Retreat draws its inspiration from two remarkable natural stones—porphyry and quartzite.

- **Porphyry:** *Traditionally used for outdoor paving, porphyry has earned its place in interior design for its elegance and versatility. Its ability to pair seamlessly with other natural stones makes it an ideal choice for both outdoor and indoor settings.*
- **Quartzite:** *Known for its varied shading, quartzite replicates the natural heterogeneity of stone, creating a dynamic surface that brings the beauty of the outdoors inside. The modular, single-calibre sizes offer maximum flexibility, allowing designers to create bespoke compositions.*

Part of the Terratinta Group, Ceramica Magica is a leader in creating high-quality ceramic surfaces that bridge the gap between nature and modern design. With a focus on material research and innovation, the brand continues to push the boundaries of what is possible in interior and exterior design, offering solutions that blend beauty, durability, and elegance.
